

LDAR PRIMARY STANDARDS

Red Ball TGS offers a variety of different Leak Detection and Repair (LDAR) Calibration Gases.

Our LDAR Primary Standards are NIST traceable and Certified within +/-2% Accuracy per EPA guidelines. We stock different concentrations of LDAR gases for immediate availability and same day shipping. These gases are offered in both transportable gas cylinders as well as high pressure cylinders.

TYPICAL LDAR CALIBRATION GASES

GAS	CONCENTRATION
Methane Balance Air	5 ppm
Methane Balance Air	10 ppm
Methane Balance Air	20 ppm
Methane Balance Air	100 ppm
Methane Balance Air	200 ppm
Methane Balance Air	500 ppm
Methane Balance Air	1000 ppm
Methane Balance Air	2,000 ppm
Isobutylene Balance Air	500 ppm
Isobutylene Balance Air	10,000 ppm
Zero Ambient Air	<0.1 THC
Ultra High Purity Hydrogen	99.999%
